You can pay up to your UA amount directly to the provider while you are at the visit or after they send your bill in the mail. Open a Sharing Request as soon as its convenient and send the bills to Mutual Health™ as you receive them.

Medications

For medications outside the formulary options in the Virtual Care program, costs for acute healthcare needs can be shared once the member's Unshared Amount has been satisfied.

Outpatient Care

This includes non preventive care such as doctor visits, urgent care, imaging, and recovery therapy. If you are submitting or have an approved Sharing Request with Mutual Health™ then present yourself as a self-pay patient and ask for applicable discounts. You may also contact Mutual Health™ for prepayment or at time of service payment options.

You have the freedom to choose from a number of eligible maternity expenses with no sharing limit*. In addition, your membership provides a variety of eligible maternity services with a \$6,000 sharing limit**. As a one-of-kind offering, Mutual Health™ will order a six-month supply of disposable diapers after delivery (one case per month).

Newborns whose birth is related to an eligible Maternity Sharing Request must be added to the household membership by the parent within 30 days of birth.

Surgery Guide

Mutual Health™ helps reduce surgery costs for both you and the community with timely and proactive planning. It is our goal to make sure this is a smooth process, so you can focus on your mental health going in to it and your recovery after surgery.

Your Path to Surgery with Mutual Health™

We will support you every step of the way, and here are a few steps we take to make this a smoother process.

Is The Procedure The Right Choice Of Action?

It's always helpful to receive a second opinion and explore therapeutic options to confirm surgery is the best course of action for you.

Facility and Surgeon Selection

We can help you choose a high-quality, fair-priced facility, but ultimately, you're empowered to make the decision that's right for you. Receiving our assistance in selection may help waive part of your Unshared Amount.

Payment Options

Prepayment for the facility, surgeon, and anesthesiologist can help keep your costs down. We will work with you to help you find the best payment method for your situation.

Recovery Options

As a Mutual Health™ member, you can choose your recovery options. You also have access to a \$3,500 allowance for therapeutic services, so you can recover effectively.

How Sharing Works

What is the Unshared Amount (UA)?

The Unshared Amount, or UA, is the amount a member must contribute as their member responsibility before expenses related to a Sharing Request become eligible with the Health Share community. We offer two membership UA options: \$1,500 and \$3,000. After the member pays the UA, additional eligible medical expenses are shared with the Mutual Health™ community. There is no annual or lifetime limit on eligible expenses.

Changing Your UA

Members may choose to change their UA once per membership year. If it's decreased, a 60-day waiting period will apply to all Sharing Requests other than those resulting from an accident.

What is a Sharing Request?

A Sharing Request is a method through which members can submit their medical expenses for sharing by the community. Instead of traditional deductibles, Mutual Health™ operates on a per-member, per Sharing Request basis. This means that each Sharing Request is the total number of bills related to a single request. Bills are incurred from licensed medical professionals and facilities, such as physicians, emergency rooms, and hospitalizations.

Sharing Requests Subject to the UA

Medical expenses not outlined as an eligible preventive service are subject to the Unshared Amount. This includes maternity, unexpected medical events, and care for pre-existing conditions after the first year.

Determination of a Sharing Request

A determination is the process by which the Mutual Health™ team reviews Sharing Requests. Documentations submitted by a member or on behalf of a member will be reviewed and evaluated for eligibility based on the member guidelines.

Maximum Shared Amount

There are no annual or lifetime maximums for Sharing Requests. However, according to these Member Guidelines, certain healthcare expenses may be subject to sharing allowances per Sharing Request or once per lifetime of the membership.

Specific Allowances & Requests

Specific requests will be subject to a maximum sharing allowance per Sharing Request or may require additional information due to a limitation or a specifically defined description.

Sharing Request Allowances

Some Sharing Requests, such as alternative treatments and recovery services, will have a sharing allowance after the Unshared Amount is met. All allowances will be clearly outlined in these member guidelines and can be based on a lifetime or per-Sharing Request limit. The allowance is toward the costs up to the specified amount for accrued medical expenses. Some memberships also include allowances for other services, including preventive care. See your specific membership for details.

Safeguard Limit For Multiple Sharing Requests

The "safeguard limit" provides a cap to households that experience more than two eligible Sharing Requests in a rolling 12-month period. Each household membership will only be responsible for two (2) UAs in 12 months beginning on the first service date for each Sharing Request. If a household has met two (2) UAs in a rolling 12-month period, Mutual Health™ will share additional eligible Sharing Requests exceeding \$1,500 with no UA responsibility.

Requesting Self-Pay Discounts

Members can submit Sharing Requests before or after receiving medical services. For all purposes, members should present as self-pay patients and communicate costs and discounts to Mutual Health™ as soon as possible. The members are responsible for requesting self-pay discounts and providing documentation for Sharing Requests.

Pre-Existing & Ineligible Expenses

Pre-Existing Medical Conditions

All members have a waiting period for medical conditions that existed before the membership start date. A pre-existing medical condition limitation is applied based on the first date of active membership. Any illness or injury for which a person has had any of the following occur within 24 months prior to the effective date of the membership is considered a pre-existing condition:

- Been examined
- Taken medication
- Had symptoms
- Received medical treatment

Pre-Existing Condition Phase-In Period

Pre-existing conditions have a phase-in period wherein sharing is limited. Members have a one-year waiting period from the initial enrollment date before pre-existing conditions are eligible. After the first year, pre-existing Sharing Requests are eligible with a sharing limit that increases each membership year. Eligible amounts for pre-existing conditions:

- Year One: \$0 (waiting period)
- Year Two: \$30,000 maximum per need
- Year Three: \$60,000 maximum per need
- Year Four: \$150,000 maximum per need
- Year Five: The sharing maximum is removed for pre-existing conditions

Cancer

Any testing, preventive treatments, prophylactics, or medications that were taken by the member 36 months prior to the start date of a previously diagnosed cancer will result in a recurrence of that type of cancer being considered a pre-existing condition.

Maternity

Conception occurring within (30) days of the membership start date is ineligible for sharing. Pregnancy existing prior to membership is not eligible. Medical records will confirm the conception date. Members who purposely misrepresent their conception dates may be subject to membership revocation

Exceptions That Are Not Considered Pre-Existing

High blood pressure, high cholesterol, hyperthyroidism, hypothyroidism, and type 2 diabetes will not be considered preexisting conditions as long as the member has not been hospitalized for the condition in the 12 months before enrollment.
